

Wonder Woman Estate Sales
Your Michigan Estate Sale Connection

Barbara Stevens Jersey
Owner

Wonder Women Estate Sales offers several different services that could be of benefit to you. We have been a Michigan business for 25 years and offer 40 years dealing in antiques and collectibles.

My background includes teaching and lecturing in the antiques industry, owning an antiques mall and antiques business, and published work. I am an EBay Education Specialist, and write a newspaper column on antiques. I teach classes and hold seminars at Michigan State University and other locations to help people learn about antiques and dispose of their precious possessions.

Please review the following list to see if our services fit your needs. Please feel free to call or email if you need additional information.

ESTATE SALES: With 25 years experience in holding estate sales, Wonder Women is YOUR Michigan connection. We organize, clean, price, and sell your merchandise. Our commission is based on amount, type and condition of the estate. My team is experienced in putting together a sale to garner the highest revenue possible.

MOVING SALES: Sometimes clients need to downsize when they move and there is no time for a garage sale. All you need to do is leave your items in the house and we will come in to hold the sale. These sales historically generate more money than garage sales. We also hold sales to empty storage units.

APPRAISALS: Written appraisals are sometimes necessary for settling estates, for insurance purposes, or just to have a record of your family treasures. We can provide that service for one item or many. We also offer a Walk-Through Appraisal, which is beneficial when a written appraisal is not necessary.

LECTURES/SEMINARS: Do you have a group that would like a speaker? I have several topics of interest for 20 minute talks, or longer seminars. Topics include how to dispose of your inherited treasures, how to distinguish treasure from trash, how to start a collection or become a dealer, appraisal night, and individual topics like furniture, pottery, glass or toys, etc. I have also done "Appraisal Night" for groups.

CLEAN-OUTS: When estates are left or homes are foreclosed on, sometimes they are full of merchandise to be disposed of, and we can help. If you are selling a home that is too far from your location to deal with, we can empty it for you. We also will help clients who just need to empty their basement or garage but the job is too overwhelming for them.

Part of our job is also to help people decide what to do. We will help you decide what the best avenue is for disposing of your valuables. If our service does not fit your needs, we will advise and recommend what we feel is your best option.

We hope we can be of service to you in the future.
